

VON DER VISION ZUR WIRKLICHKEIT – PLATTFORMEN UND LÖSUNGEN FÜR DAS INTERNET DER DINGE

Dr.-Ing. Rainer Kallenbach
CEO Bosch Software Innovations GmbH

Bosch Group: Technology to enhance quality of life

Four business sectors

Key facts
(2016)

**Mobility
Solutions**

**Industrial
Technology**

**Energy and
Building
Technology**

**Consumer
Goods**

276
manufacturing sites

390,000
associates incl. 59,000 in R&D

€73.1 billion
in sales

Bosch Software Innovations –
IoT software and systems house

> 750 IoT experts
in 9 international
locations

THE INTERNET OF THINGS: FUNDAMENTAL CHANGES IN OUR BUSINESS

The Internet of Things

We are living in a highly connected world ...

0.04 billion

0.75 billion

> **6.6 billion**

Connected devices

Web 1.0 “Classic Web”

connecting enterprises/organisations with people, rather static

- Homepages
 - E-Commerce
- ≈ 1990

Web 2.0 “Social Web”

interconnecting also people, dynamic interaction between common users

- Blogs, Social Communities
 - Platforms like Facebook, Twitter, YouTube...
- ≈ 2005

Web 3.0/4.0 “Internet of Things”

interconnecting also objects of everyday use to create

- Industry 4.0
- Connected Mobility
- Smart Home ...

The Internet of Things Enabler: miniaturized, low power sensors

► “Moore’s Law” in MEMS*:

*MEMS: Micro electro-mechanical systems
Source: Bosch Sensortech, www.bosch-sensortec.com

Bosch Sensortec 1st
with 3x3 mm²

Bosch Sensortec 1st
with 1.2 x 1.5 mm²

2005

2006

2007

2010

2013

Bosch Sensortec 1st
with 2x2 mm²

Continuously

- shrinking size / footprint
- reducing power consumption

Bosch – world’s leading manufacturer

- Producing sensors on industrial scale since 1995
- Six billion MEMS sensors produced
- 100% in-house from MEMS design to manufacturing

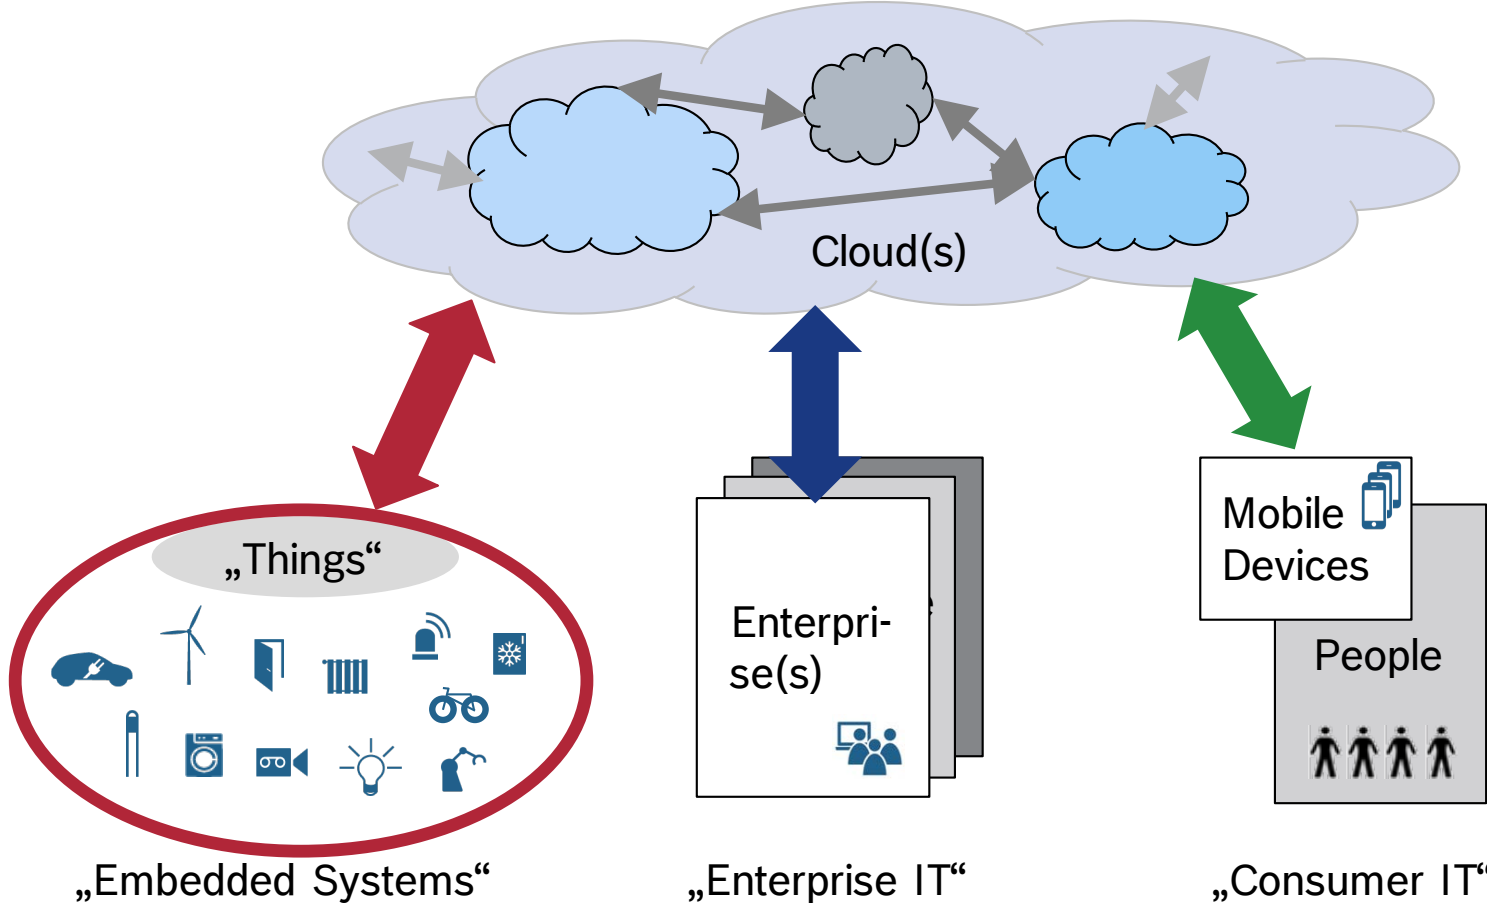

Our vision for the Internet of Things: The Connected World

The Internet of Things

Bridges between different worlds required

Not only a technical task:
different business models,
cultures and paradigms
must be brought together

The Internet of Things

Fundamental changes in our business

1 Complement and strengthen traditional hardware product business

Higher margins and differentiation through product-related services

2 Grow with potentially disruptive business models

Will everything become a service?

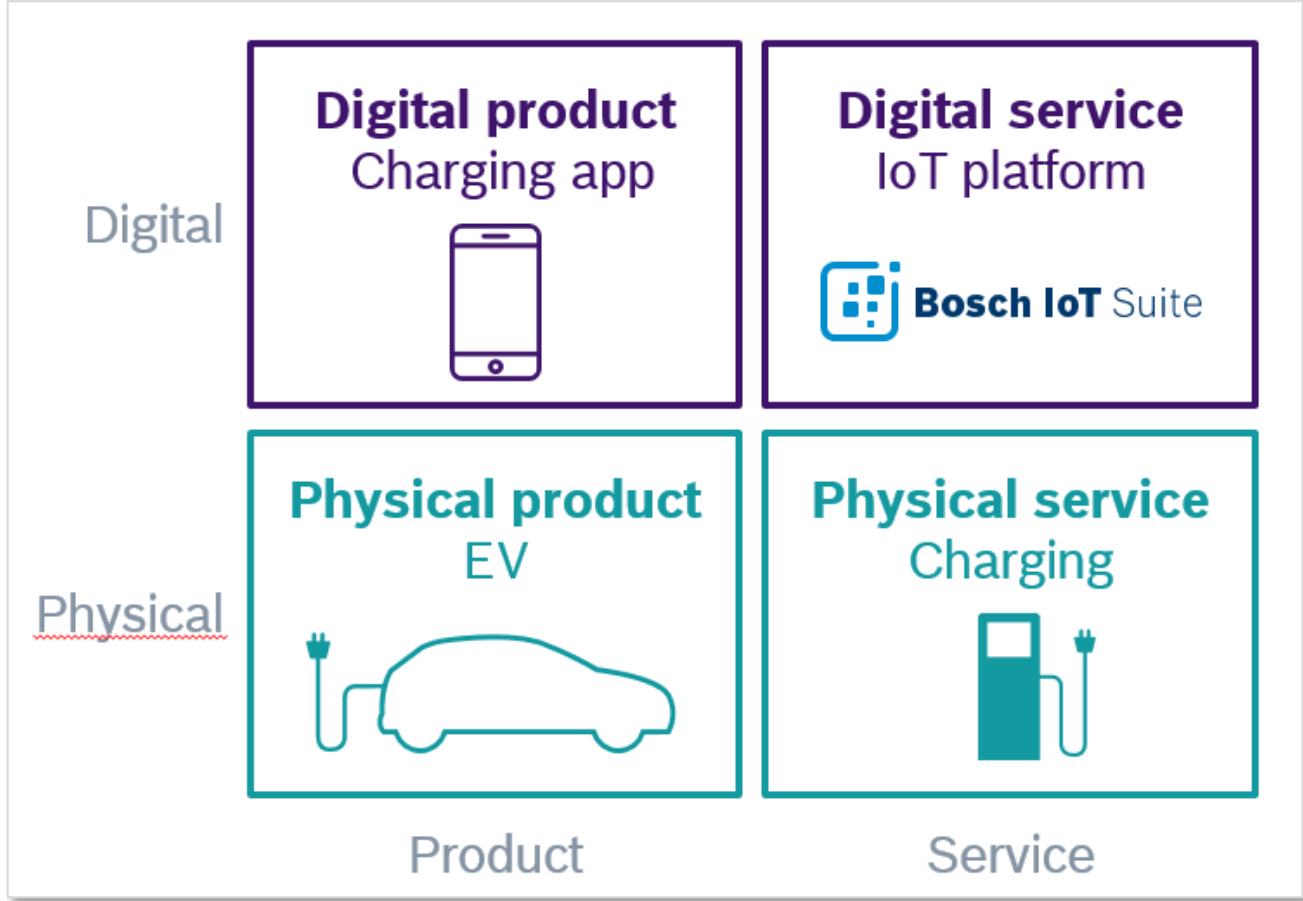

Prof. Elgar Fleisch, 2010

The Internet of Things

From Physical Products to Digital Services: Mobility

Example: EV Charging

Hybrid Product Scheme: Prof. Elgar Fleisch, 2016

HOW DO WE PREPARE AT BOSCH ?

Bosch is active on 3 layers of the IoT

Bosch IoT Suite connecting all industries

Services & applications

Middleware platform

Smart things

Bosch IoT Suite

Toolbox in the cloud for IoT developers

Bosch IoT Analytics

Software services available on developer marketplace

Bosch IoT Hub

Bosch IoT Permissions

Bosch IoT Remote Manager

Bosch IoT Rollouts

Bosch IoT Things

Successfully commercialize prototype applications

Bosch in the Internet of Things

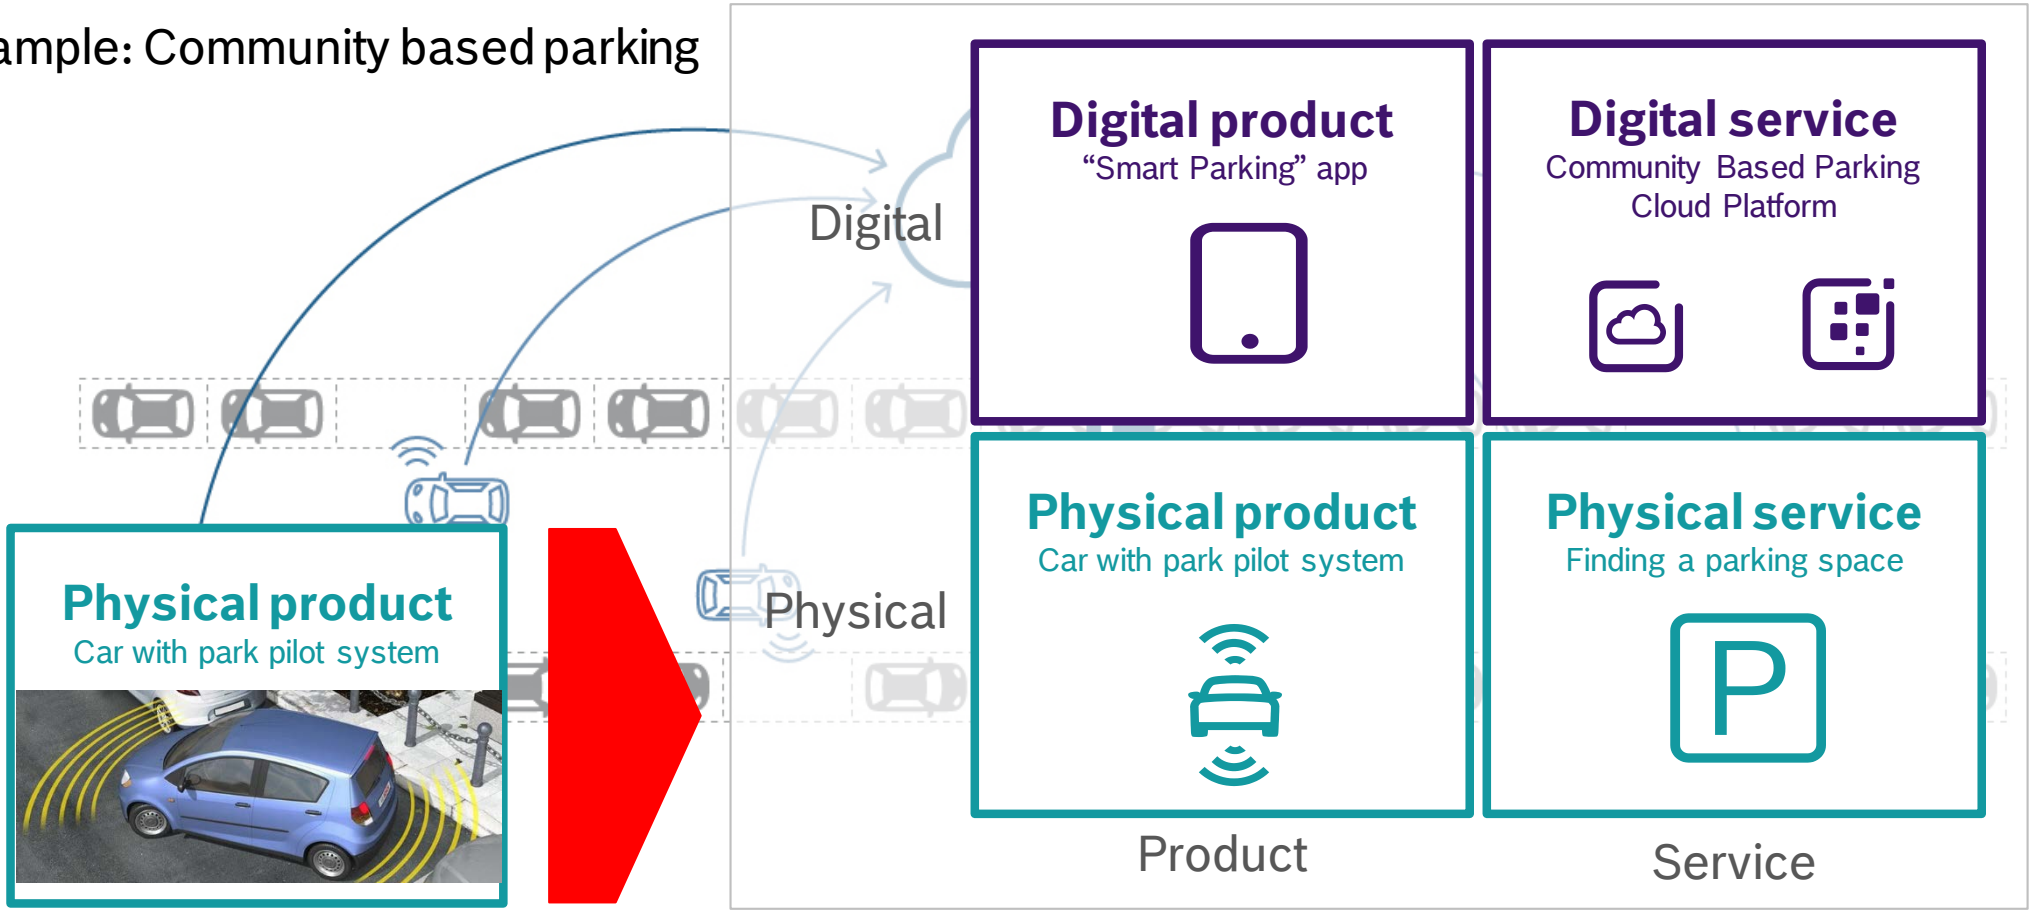

Innovative cloud-based solutions across all domains

The Internet of Things

From Physical Products to Digital Services: Mobility

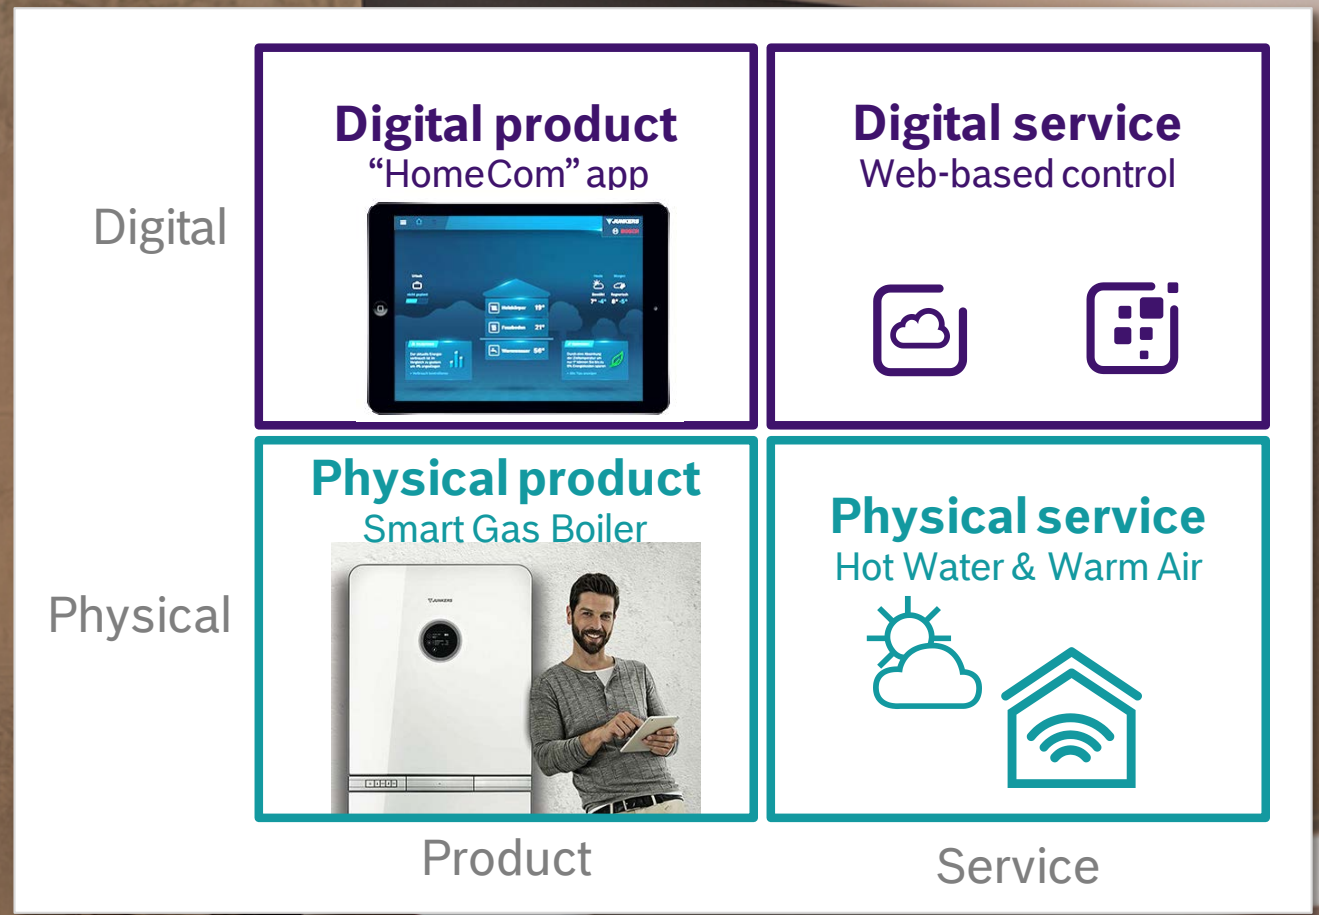

Example: Community based parking

Hybrid Product Scheme: Prof. Elgar Fleisch, 2016

The Internet of Things From Physical Products to Digital Services: Smart Heating

Example: Junkers Gas Boiler

Hybrid Product Scheme: Prof. Elgar Fleisch, 2016

The Internet of Things From Physical Products to Digital Services: Powertools

Example: "Track my Tools"

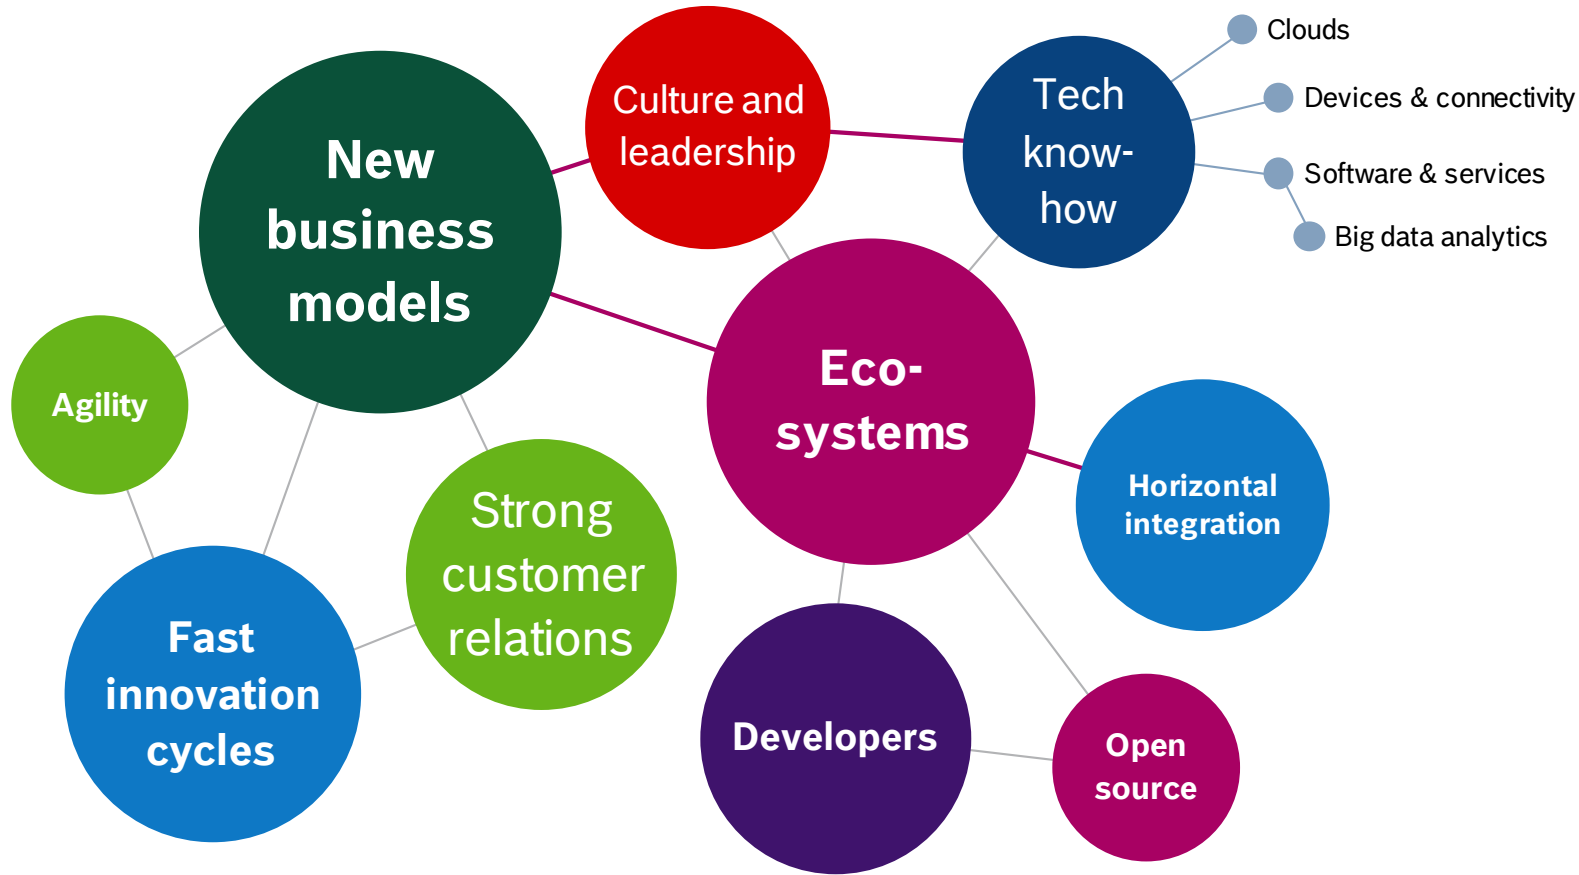

Physical product
Electric Drill

Hybrid Product Scheme: Prof. Edgar Fleiter, 2016

The Internet of Things

Success factors in a networked economy

Open IoT ecosystems are key to success:

- ▶ Connected world requires cross-domain integration
 - open standards
- ▶ Technology
 - Multi-layer protocol interoperability
 - Standardized interfaces and APIs
 - Open source
- ▶ Marketplaces, clouds, platforms
- ▶ Strategic alliances

Bosch Software Innovations

Agile Leadership & People are Key for Success
